Nowadays people are concerned about regularity of their daily expenses. This is done mainly for keep a track of the users' daily expenses to have a control of their monthly expenses. As the traditional methods of budgeting, we need to maintain the Excel sheets, Word Documents, notes, and files for the user daily and monthly expenses. There is no as such full-fledged solution to keep a track of our daily expenses easily. Keeping a log in diary is a very monotonous process and also may sometimes lead into problems due to the manual calculations.

Looking on all the above given conditions, we are trying to satisfy the user requirements by building a application which will help them reduce their burdens. "Personal Expense Tracker Application" is an application where one can enter their daily expenses and end of the day, they know their expenses in charts. Personal Expense Tracker app will not only help you with budgeting and accounting but also give you helpful insights about money management.This applications will ask users to add their expenses and based on their expenses, wallet balance will be updated which will be visible to the user. Also, users can get an analysis of their expenditure in graphical forms. They have an option to set a limit for the amount to be used for that particular month if the limit is exceeded the user will be notified with an email alert.

This application will help us to reduces the manual calculations for their daily expenses and also keep the track of the expenses. With the help of this application, user can calculate his total expenses per day and these results will stored for unique user.
